

Correction. In the article "Recovery from ultraviolet light-induced inhibition of DNA synthesis requires *umuDC* gene products in *recA718* mutant strains but not in *recA*⁺ strains of *Escherichia coli*," by Evelyn M. Witkin, Vivian Roegner-Maniscalco, Joann B. Sweasy, and J. Owen McCall, which appeared in number 19, October 1987, of *Proc. Natl. Acad. Sci. USA* (84, 6805–6809), an editorial error in an identifying symbol in the legend for Fig. 5 (p. 6808) occurred; the curve for strain SC30-RP-LM should have been identified as a regularly broken line (---); the regularly broken line within the figure correctly represented the data for strain SC30-RP-LM.
