

## Correction

### NEUROSCIENCE

Correction for “Patterns of neural activity associated with honest and dishonest moral decisions,” by Joshua D. Greene and Joseph M. Paxton, which appeared in issue 30, July 28, 2009, of *Proc Natl Acad Sci USA* (106:12506–12511; first published July 21, 2009, 10.1073/pnas.0900152106).

The editor wishes to note that the conflict of interest footnote should have included the following, “Marcus E. Raichle is a member of the governance board for the Law and Neuroscience project with the John D. and Catherine T. MacArthur Foundation, which provided funding for this work.”
