

Correction

The journal wishes to point out a correction to the article "A Rap/Phosphatidylinositol 3-Kinase Pathway Controls Pseudopod Formation" (Mol. Biol. Cell [2010] 21, 936–945; first published in *MBoC in Press* as 10.1091/mbc.E09-03-0177). Because of a copyediting error, the title was incorrectly given as "A Receptor-associated Protein/Phosphatidylinositol 3-Kinase Pathway Controls Pseudopod Formation" when the article was first published. In addition, there was an error in the text: The first sentence of the third paragraph of the Introduction should have read "Rap belongs to the Ras subfamily of small G-proteins and is involved in processes like adhesion, exocytosis, differentiation, and cell proliferation (Bos *et al.*, 2001; Bos, 2005)." Both the title and the sentence were corrected in the HTML and PDF versions of the article on March 19, 2010.
