Morant A.V., Bjarnholt N., Kragh M.E., Kjærgaard C.H., Jørgensen K., Paquette S.M., Piotrowski M., Imberty A., Olsen C.E., Møller B.L., and Bak S. The β -Glucosidases Responsible for Bioactivation of Hydroxynitrile Glucosides in *Lotus japonicus*.

In Figure 5 of this article, the substrate specificity of *LjBGD4* as determined using the stably transformed *Arabidopsis* (*Arabidopsis thaliana*) line (data shown in Figure 5, right-side columns) cannot be considered valid due to the use of an erroneous transgenic *Arabidopsis* line for the measurements.
