

Correction. In the article "Differential effect of α -latrotoxin on exocytosis from small synaptic vesicles and from large dense-core vesicles containing calcitonin gene-related peptide at the frog neuromuscular junction" by M. Matteoli, C. Haimann, F. Torri-Tarelli, J. M. Polak, B. Ceccarelli, and P. De Camilli, which appeared in number 19, October 1988, of *Proc. Natl. Acad. Sci. USA* (85, 7366-7370), the following printing and editing errors should be noted. The footnote "Deceased July 8, 1988," inadvertently assigned to both B. Ceccarelli and P. De Camilli, is relevant only to B. Ceccarelli. In addition, the correct Table 1 is reproduced here.

Table 1. Number of LDCVs per cross section

Sample	Temp.	LDCV,	
		mean \pm SEM	<i>n</i>
Control	RT	0.83 \pm 0.12	47
α -LTX			
Ca ²⁺ free		0.62 \pm 0.14	56
1.8 mM Ca ²⁺		0.61 \pm 0.11	49
Control	1-3°C	0.73 \pm 0.19	22
α -LTX			
Ca ²⁺ free		0.66 \pm 0.15	32
1.8 mM Ca ²⁺		0.82 \pm 0.17	34
