Corrigendum

Corrigendum to “Pituitary senescence: The evolving role of *Pttg*”

Vera Chesnokova*, Shlomo Melmed

Department of Medicine, Division of Endocrinology and Metabolism, Cedars Sinai Medical Center-David Geffen School of Medicine at University of California Los Angeles, Los Angeles, CA, United States

The authors regret that in the review entitled “Pituitary Senescence: The Evolving Role of *Pttg*” quotation marks were inadvertently omitted: 1) The sentence in the 2nd paragraph in column 1 on page 58 should read “High p21 levels... in human GH-secreting adenomas overexpressing *Pttg*” (Chesnokova, 2008), and 2) The 2nd paragraph in column 2 on page 58 should read: “Mechanisms underlying transformation of pituitary tumors” (Chesnokova, 2008).
