

Correction. In the article "P450XXI (steroid 21-hydroxylase) gene deletions are not found in family studies of congenital adrenal hyperplasia" by Karla J. Matteson, John A. Phillips III, Walter L. Miller, Bon-chu Chung, Pamela J. Orlando, Herwig Frisch, Angel Ferrandez, and Ian M. Burr, which appeared in number 16, August 1987, of *Proc. Natl. Acad. Sci. USA* (84, 5858–5862), the printer inadvertently reversed the two panels of Fig. 3 so that the data for families 1–5 appeared on p. 5861 and the data for families 6–10 appeared on p. 5860. These panels should be reversed; however, the families are numbered correctly so that no misinterpretation of the text arises from the transposition of the two panels.
