

[Erratum: Volume 10, Issue 6, pp. 879–82] Mechanism of hypoxia-induced NFκB

Andrew Melvin, Sharon Mudie and Sonia Rocha*

University of Dundee; Dundee, Scotland, UK

In the recently published paper, “Mechanism of hypoxia-induced NFκB” by Melvin et al. (Cell Cycle 2011; 10:879-82), the authors found that the title is incorrect.

The correct title should read: Further insights into the mechanism of hypoxia-induced NFκB.

This *Cell Cycle* article is an Extra View on the authors’ recent study correctly entitled “Mechanism of hypoxia-induced NF-kappaB” (published in *Mol Cell Biol* 2010; 30:4901-21) and contains extra insights into this previous study as well as new research data regarding this topic.
