[doi:[10.1063/1.3613670](https://doi.org/10.1063/1.3613670)]

There is a typographical error in the upper line of the formula for M in the article¹ (page 3, top of left column). The correct formula is

$$M = \begin{cases} \frac{(\varphi - (1/2) \sin 2\varphi)}{\sin^3 \varphi} \cos \varphi, & \text{for } \chi = \cos \varphi < 1 \\ \frac{1}{\sin^2 \varphi} - \frac{1}{2} \frac{\cos^2 \varphi}{\sin^3 \varphi} \ln \left(\frac{1 + \sin \varphi}{1 - \sin \varphi} \right), & \text{for } \chi = 1/\cos \varphi > 1. \end{cases}$$

The detected error does not affect any results of the study. We thank Dr. Greg Huber of the University of Connecticut Health Center for pointing out the error to us.
