Retraction: the cellular source for APOBEC3G's incorporation into HIV-1

The authors would like to retract the article "The cellular source for APOBEC3G's incorporation into HIV-1"[1]. After publication of the article, the authors realized that the electrophoretic images in Figure 4D/E, showing a reproducible result of their previous publication [2] (cited as reference 6 [1]), was mistakenly taken from the same images used in [2]. In addition, Figure 2B is an unintended duplicate image of Figure 1B. This should have been avoided by the authors' careful proof-reading of the manuscript. The authors apologize to the readers, reviewers, and editors of *Retrovirology* for publishing these erroneous data.
