

**Correction.** In the article "Rapid determination of 16S ribosomal RNA sequences for phylogenetic analyses" by David J. Lane, Bernadette Pace, Gary J. Olsen, David A. Stahl, Mitchell L. Sogin, and Norman R. Pace, which appeared in number 20, October 1985, of *Proc. Natl. Acad. Sci. USA* (82, 6955–6959), the authors request that the following correction be noted. On p. 6957, the first sentence of the paragraph beginning on line 9 of the left-hand column should read "Reverse transcriptase has been used previously to copy rRNA templates (14–17); Bachelierie and his colleagues (17) have used a restriction fragment primer applicable to the 28S rRNA of multiple eukaryotic species."

**Correction.** In the article "Hybrid hybridoma producing a bispecific monoclonal antibody that can focus effector T-cell activity" by Uwe D. Staerz and Michael J. Bevan, which appeared in number 5, March 1986, of *Proc. Natl. Acad. Sci. USA* (83, 1453–1457), the authors request that the following addition be noted. This work was performed while Uwe D. Staerz was a graduate student in the Department of Biology, University of California, San Diego, La Jolla, CA 92093, and it forms a part of his Ph.D. thesis.
