2012. Dynamical modeling of three-dimensional genome organization in interphase budding yeast. *Biophys. J.* 102:296–304.

Equation 10 should read as

$$U_{\text{Go}}(\mu, i; \nu, j) = -\frac{\xi}{\sqrt{2\pi(c\sigma_{ij}^{\mu\nu})^2}} \exp\left(-\frac{(r_{ij}^{\mu\nu} - \sigma_{ij}^{\mu\nu})^2}{2(10c\sigma_{ij}^{\mu\nu})^2}\right) \quad (10)$$
