Two important points were omitted from the methods details of this article. The third sentence of the second paragraph should read:

10 μ l of DNA were annealed to 5 μ l of sequencing primer (10 ng/ μ l) and 3 μ l of sequencing buffer (5 \times) by heating to 95°C (or placing in boiling water) for 10 min and cooling quickly to 37°C.

Reference to an earlier publication on similar work was omitted from the above article. The correct citation is published below.
