
Corrigenda**Determination of genome size of *Pseudomonas aeruginosa* by PFGE: analysis of restriction fragments**

by J.S.R.Hector and A.R.Johnson

Nucleic Acids Research, **18**, pp. 3171–3174 (1990)

The authors wish to acknowledge the work of Dr D.Grothues, Dr U.Romling and Dr B.Tummler of the Cystic Fibrosis Research Group, Medizinische Hochschule Hannover, FRG, on the characterization of genomic DNA fragments and the completion of a physical map for *Pseudomonas aeruginosa*. Their articles in *FEMS Microbiol. Lett.*, **48**, 419–422 (1987), *FEMS Microbiol. Lett.*, **52**, 225–258 (1988) and *EMBO J.*, **8**, 4081–4089 (1989) should be added to the reference list. The authors wish to further acknowledge the work in *Pseudomonas* genetics by Dr B.Holloway and Dr A.Morgan, *Ann. Rev. Microbiol.*, **40**, 79–105 (1986) and regret any inconvenience caused by the omission of these references.

SgrAI, a novel class-II restriction endonuclease from *Streptomyces griseus* recognizing the octanucleotide sequence 5'-CR/CCGGYG-3'

by N.Tautz, K.Kaluza, B.Frey, M.Jarsch, G.G.Schmitz and C.Kessler

Nucleic Acids Research, **18**, p.3087 (1990)

This article was inadvertently published with an incorrect sequence in the title. The correct title appears above.

Sequence coding for a sexual stage specific protein of *Plasmodium falciparum*

by M.C.Bruce, D.A.Baker, P.Alano, N.C.Rogers, P.M.Graves, G.A.T.Targett and R.Carter

Nucleic Acids Research, **18**, p. 3637 (1990)

The authors wish to acknowledge that the above paper was supported in part by a grant from the UNDP/World Bank/WHO Special Programme for Research and Training in Tropical Diseases.
