### Erratum

**Chicken liver TGGCA protein purified by preparative mobility shift electrophoresis (PMSE) shows a 36.8 to 29.8 kd microheterogeneity**

by Ralph A.W.Rupp and Albrecht E.Sippel

*Nucleic Acids Research*, 15, 9707–9726 (1987)

During page make-up of the above paper at the publisher's office, some of the text was placed in the wrong order. On p. 9724, the last five lines should appear after line one.
