Corrigenda

Cloning and characterization of a human ribosomal protein gene with enhanced expression in fetal and neoplastic cells

by Jing-hsing Ou, T.S.Benedict Yen, Yan-Fei Wang, Wing K.Kam and William J.Rutter

Nucleic Acids Research, 15, 8919–8934 (1987)

Figures 6 and 7 are reversed although the legends are correct.

Potential secondary structure at translation–initiation sites

by M.C.Ganoza, E.C.Kofoid, P.Marlière and B.G.Louis

Nucleic Acids Research, 15, 345–360 (1987)

In the paper entitled 'Potential secondary structure at translation–initiation sites', the column headings in Table 1 (page 349) are wrong. They should read:

U C A G Total U C A G Total

as is obvious from the distributions in rows 35–37 of the table.

The authors apologize for this error, and wish to thank Dr P.Bonham-Smith of the University of Arizona at Tucson for calling it to their attention.
