J Drug Target. 2008 November ; 16(9): 723. doi:10.1080/10611860802519782.

Retraction

The following two articles have been retracted by the authors for uncertainty in the integrity of some of the published data:

1: Motlekar NA, Fasano A, Wachtel MS, Youan BB. 2006.

Zonula occludens toxin synthetic peptide derivative AT1002 enhances in vitro and in vivo intestinal absorption of low molecular weight heparin.

J Drug Target 14(5):321–329.

2: Motlekar NA, Srivenugopal KS, Wachtel MS, Youan BB. 2005.

Oral delivery of low-molecular-weight heparin using sodium caprate as absorption enhancer reaches therapeutic levels.

J Drug Target 13(10):573–583.
