

Corrigendum

tcRNA as a naturally occurring antisense RNA in eukaryotes

by Stuart M. Heywood

Nucleic Acids Research, **14**, 6771–6772 (1986)

In the above paper the tcRNA homologies to myosin heavy chain mRNA were incorrectly given to genomic sequences. The sequences given below represent the correct homologies.

5' mRNA AGUCUUGACAGAAACGUUCAAGAGCACUCUUCUGAGUGUGCUUCCUGUGUGGCGCAGCCAUG —
3' tcRNA GCAGGUU — GGGGAGAUUUAU — AUAUAUAUGUGUCG ←
