

ERRATUM

'Superstructure and CD spectrum as probes of chromatin integrity'

by G. de Murcia, G.C. Das, M. Erard and M. Daune

Nucleic Acids Research 5, 523-535, February 1978

Page 524, line 11 – then compared by using several biochemical and biophysical assays

Page 526, line 17 – the specimen was positively stained with a 50  $\mu$ l drop of uranyl acetate (1%, 30 sec.), washed with a 50  $\mu$ l drop of distilled water (30 sec.), air dried. . .

Page 533, line 27 – observed with sheared chromatin (fig. 2)

Page 535, ref. 3 – Noll, M. (1974) Nature 251, 249-251.
