A result was improperly reported. On pages 530–531, the last sentence of the second paragraph of the Results section should read: During phase 2, sales of all green items decreased 0.5% ($P < .001$) relative to phase 1, but green beverages further increased 4.0% ($P < .001$).

This difference does not affect the interpretation of the results.

ERRATUM

In: Wagenaar AC, Maldonado-Molina MM, Wagenaar BH. Effects of Alcohol Tax Increases on Alcohol-Related Disease Mortality in Alaska: Time-Series Analyses From 1976 to 2004. *Am J Public Health*. 2009;99(8):1464–1470. doi:10.2105/AJPH.2007.131326.

There was an error in the text. On page 1465, second column, the third sentence of the first full paragraph should read: (2) Alcohol-related mortality, which represents all deaths caused by diseases with alcohol-attributable fractions 0.35 and higher but less than 1.0 (i.e., other cirrhosis; cholelithiasis; acute and chronic pancreatitis; malignant neoplasms of the mouth, pharynx, esophagus, liver).

The results and conclusions are not affected by this change.
