There was an error in one of the tables in the Supporting Information of our manuscript “Increasing mercury concentrations in yellow perch in a hotspot in Atlantic Canada, Kejimikujik National Park” (published in *ES&T* **44** (23): 9176–9181). In Table S2, the units for alkalinity should be mg/L rather than ng/L; this correction has been made in the new version of the Supporting Information.
