Corrigendum to “High-fructose corn syrup causes characteristics of obesity in rats: Increased body weight, body fat and triglyceride levels”

Miriam E. Bocarsly, Elyse S. Powell, Nicole M. Avena, and Bartley G. Hoebel

The first sentence on p.104, which, in the previous online version of the article, read “In Experiment 2 (long-term study, 6–7 months), HFCS caused an increase in body weight greater than that of sucrose in both male and female rats.” is corrected here in the final online version to read “In Experiment 2 (long-term study, 6–7 months), HFCS caused obesity greater than that of chow in both male and female rats”. [The comparison of HFCS and sucrose is in Experiment 1.]
