Correction to 'To concentrate or ventilate? Carbon acquisition, isotope discrimination and physiological ecology of early land plant life forms'

Moritz Meyer, Ulli Seibt and Howard Griffiths

Phil. Trans. R. Soc. B **363**, 2767–2778 (2008) (doi:10.1098/rstb.2008.0039)

Units for conductance (internal conductance, g_{int} , and external liquid-phase conductance, g_{liq}) were erroneously shown as (micro) $\mu\text{mol m}^{-2} \text{s}^{-1}$. They should read (milli) $\text{mmol m}^{-2} \text{s}^{-1}$ instead, throughout the text. This error appears in table 2 (header of columns 1 and 3), and in the results section at the bottom of page 2773 (left column lines 6–7, right column line 3). Conductance value on page 2773 right column line 4 had the correct units.

Another typographical error was made in the numerator of equation (2.1) on page 2770. The correct formula should read as

$$\Delta = \frac{\xi(\delta_o - \delta_e)}{1000 + \delta_o - \xi(\delta_o - \delta_e)}$$

These errors do not affect the discussion and conclusions drawn in the paper.
