Anti-serpin antibody-mediated regulation of proteases in autoimmune diabetes.

Raman Baldzizhar, Christine Fedorchuk, Mithilesh Jha, Chozhavendan Rathinam, Octavian Henegariu, and Jan Czyzyk

PAGE 1617:

When preparing figures for the above article, we inadvertently inserted an incorrect image into Fig. 4 (this data set belongs to Fig. 3A). The correct image for Fig. 4 is shown below. The content of Figs. 3A and 4 is very similar; therefore, this error did not affect our results or the conclusions of our paper.

Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
