Since the publication of the original paper, the authors have noticed an error in the primer sequences. The correct primer sequences are as follows.

“Osterix (NM_001037632): forward: 5'-cccgtctgactttgccc-3', reverse: 5'-ctgccccactgcctgcatat3' (203 bp); ALP (NM_013059): forward: 5'-tggacggtgaacgggagaac-3', reverse: 5'-cagagctggcccaggcaca-3' (238 bp); collagen type I (NM_053304): forward: 5'-agcctggacttctgtcct-3', reverse: 5'-gctcgccagggtcaccagg-3' (219 bp); Osteocalcin (NM_013414): forward: 5'-tgaggacctctctgctc-3', reverse: 5'-accaccttactgccctctg-3' (130 bp); OPG (NM_012870): forward: 5'-tgaccagaaaccggacgtc-3', reverse: 5'-gttgactcctgtttcacggt-3' (202 bp); RANKL (NM_057149): forward: 5'-g gctcggaggagatggca-3', reverse: 5'-agcggcaggaacatgaagcg-3' (119 bp); and TRAP (NM_019144): forward: 5'-cacctgtgcttctccagca-3', reverse: 5'-gcccataatctgcacggttc-3' (151 bp). GAPDH (NM_017008): forward: 5'-cctgcaccac caactgcta-3', reverse: 5'-ggccatccacagtctctgag-3' (140 bp).”

In PCR amplification, “52°C for 1 min” should be corrected as “64°C for 1 min.”

In Figures 1 and 2, NADPH should be corrected to GAPDH, as shown here.

The authors apologize for this error and any inconvenience caused.
