

Correction: 2013 Online-only article citations

Cite as: *Can Urol Assoc J* 2013;7(5-6):161. <http://dx.doi.org/10.5489/cuaj.1351>

Dear readers, in 2013, CUAJ started to publish articles every month. This was done to alleviate the backlog and to support the quick dissemination of science. Our print issues will continue to be published in February, April, June, August, October and December. Our online-only articles will be published on the alternate months – January, March, May, July, September and November.

Starting in 2013, the issue numbers will be a combination of two numbers (1-2, 3-4, etc.). The publication date for both print and electronic will be a combination of two months (Jan-Feb, Mar-Apr, etc.). The online only articles (those with “E” pagination) will include a “Published online [date].”

Moving forward, we have had to correct citations from the first online-only articles already published in 2013. There was a problem with the way the issue numbers were assigned to these 13 articles in issues 1-2 (that is January-February) and 3-4 (March-April). The issue numbers have been corrected to reflect the appropriate issue they were published in.
