## Notification that new names and new combinations have appeared in volume 63, part 6, of the IJSEM

This listing of names published in a previous issue of the IJSEM is provided as a service to bacteriology to assist in the recognition of new names and new combinations. This procedure was proposed by the Judicial Commission [Minute 11(ii), *Int J Syst Bacteriol* **41** (1991), p. 185]. The names given herein are listed according to the Rules of Priority (i.e. page number and order of valid publication of names in the original articles). Taxonomic opinions included in this list (i.e. the creation of synonyms or the emendation of circumscriptions) cannot be considered as validly published nor, in any other way, approved by the International Committee on Systematics of Prokaryotes and its Judicial Commission.

\*Taxonomic opinion.

†Park *et al.* (2013) propose to transfer *Pontirhabdus pectinivorans* Yi *et al.* 2011 (the type species of the genus *Pontirhabdus*) to the genus *Algibacter* as *Algibacter pectinivorans* (Yi *et al.* 2011) Park *et al.* 2013, comb. nov. According to Rule 37a, bacteriologists adhering to this proposal must change the name *Pontirhabdus* to *Algibacter*.
