Within this article, "+Qs" should be added to the numerator of Equation 6 and "-Qs" removed from Equation 7.

All results were produced using the correct equations; therefore, none of the figures, graphs, or tables are affected. The corrected equations are as follows:

$$SF_{VB} = \frac{\frac{1}{\beta}\int_A \nabla\cdot\sigma_m\nabla V_m dt + Q_S}{Q_{thr}(t_A)}; A\in[t_{1\%}, t_{I_m0}] \tag{6}$$

$$= \frac{C_m\Delta V_m + Q_{ion}}{Q_{thr}(t_A)}; t_A = t_{I_m0} - t_{1\%} \tag{7}$$
