

CORRIGENDUM

Mechanisms of transcriptional repression of cell-cycle G2/M promoters by p63

Barbara Testoni and Roberto Mantovani

Nucleic Acids Res. 2006; **34**, 928–938. doi:10.1093/nar/gkj477

Figure 1A is a composite image constructed from separate experimental runs. This was not properly described in the figure caption. A new composite Figure 1A is included, showing clearly that the lanes come from different experiments. The primary KCs/YBL panel was erroneously inserted in duplicate in Figure 2. A new Figure 2 is also included, where the duplicate panel has been replaced with genuine HaCat/YBL results. These errors neither affect the results nor the conclusion of the article. The authors apologize to the readers and publisher for any inconvenience, which might have been caused.
