

Correction. In the article "A potassium ionophore (valinomycin) inhibits lymphocyte proliferation by its effects on the cell membrane" by Ronald P. Daniele and Sandra K. Holian, which appeared in the October 1976 issue of *Proc. Natl. Acad. Sci. USA* 73, 3599-3602, Fig. 3 was incorrectly labeled by the printer. Each curve was labeled as μM instead of nM. The correct figure and legend are shown below.

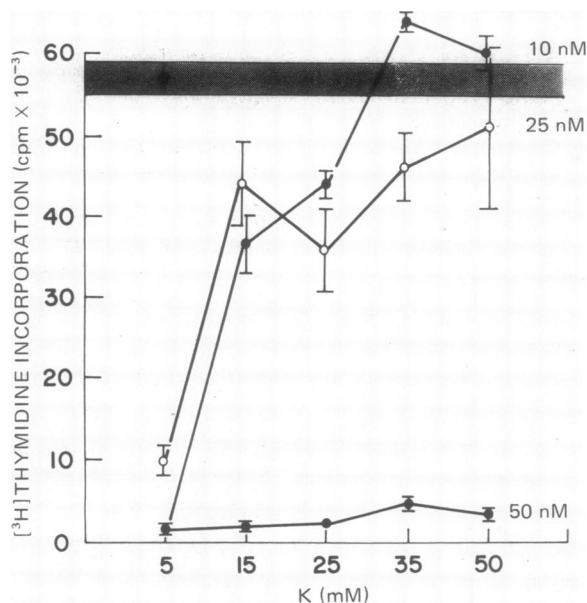

FIG. 3. Effect of increasing the K^+ concentration of external medium on $[^3\text{H}]$ thymidine incorporation at 72 hr for lymphocytes cultured in the presence of three concentrations of valinomycin (50 nM, 25 nM, and 10 nM). Each point equals mean \pm SEM of triplicate cultures of a representative experiment.

Correction. In the article "Calcium control of actin-activated myosin adenosine triphosphatase from *Dictyostelium discoideum*" by S. C. Mockrin and J. A. Spudich, which appeared in the July 1976 issue of *Proc. Natl. Acad. Sci. USA* 73, 2321-2325, the authors have requested the following change. In Fig. 3 on p. 2324, the units of ATPase specific activity on the ordinate should be $\mu\text{mol P}_i/\text{min}$ per mg of myosin.

Correction. In the article "Stereochemistry of polymerization by DNA-dependent RNA-polymerase from *Escherichia coli*: An investigation with a diastereomeric ATP-analogue" by F. Eckstein, V. W. Armstrong, and H. Sternbach, which appeared in the September 1976 issue of *Proc. Natl. Acad. Sci. USA* 73, 2987-2990, an error was made by the PROCEEDINGS Office. In the legend to Fig. 3, line 5 should read ($\text{U}_s\text{-A}$) instead of (U_3A).
