One of the authors of the above paper, Luigi Frati, has a double affiliation, part of which was omitted from the paper when it was sent for publication. His affiliation should have been given as Dipartimento di Medicina Sperimentale, Università La Sapienza, Roma and Istituto Mediterraneo di Neuroscienze, Pozzilli, Italy.

A domain sharing model for active site assembly within the Mu A tetramer during transposition: the enhancer may specify domain contributions

Jin-Ying Yang, Keetae Kim, Makkuni Jayaram and Rasika M.Harshey

The EMBO Journal, **14**, 2374–2384, 1995

In the Results section of the above paper on page 2375 the second sub-heading should read 'Not all four monomers of Mu A need to interact with the enhancer to assemble the functional tetramer' not 'Only two monomers...' as printed in the published paper.
