Mitchell, Geert R. Mortier, Stephen P. Robertson, Marie Schroeder, Paulien Terhal, and Matthew A. Brown*

(The American Journal of Human Genetics, 90, 494–501; March 9, 2012)

In the published version of this article, the amino acid alteration caused by c.161C>T should have been notated as p.Ser54Leu and not p.Pro54Leu. The wild-type amino acid is incorrectly notated in the main text, in Table 2, and in Figure 4. The authors regret this error. Additionally, *The Journal* regrets that this erratum, originally requested in 2012, was not published in a timely fashion.
