## RAP55, a cytoplasmic mRNP component, represses translation in *Xenopus* oocytes

Kimio J. Tanaka, Kenji Ogawa, Masatoshi Takagi, Naoko Imamoto, Ken Matsumoto, and Masafumi Tsujimoto

PAGE 40098:

The control lanes of the *top panel* of Fig. 1 were labeled incorrectly. The correct panel is provided below. This correction does not affect the interpretation of the results or the conclusions.

Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
