

Respiratory influenza virus infection induces intestinal immune injury via microbiota-mediated Th17 cell-dependent inflammation

Jian Wang, Fengqi Li, Haiming Wei, Zhe-Xiong Lian, Rui Sun, and Zhigang Tian

Vol. 211, No. 12, November 17, 2014. Pages 2397–2410.

The authors regret that some errors appeared in the original version of this article. The incorrect staining image was used in Figure 7 B. The correct image is shown below. In addition, in the Results section entitled Intestinal microbiota-induced IL-15 production promotes intestinal Th17 cell polarization, the second sentence should read “IL-6 expression in the small intestine was increased after PR8 infection.” Finally, in Table S1, the correct primer sequences used for the *Bacteroides* are as follows: 5′-GGTCTGAGAGGAGTCCC-3′ (forward) and 5′-GCT-GCCTCCCGTAGGAGT-3′ (reverse). In addition, Figure 1 B has been updated in the html and pdf versions of this article since initial publication. The print version remains unchanged. These changes do not alter the conclusions of the paper.
