

We thank Dr. Robert E. Lovins of the University of Georgia for high-resolution mass spectrometry data. We also thank Miss Louise Camera for her excellent technical assistance. We are grateful to Dr. Peter Jackson for the synthesis of TyrLysDnp, and to Drs. Oliver Smithies and George Smith for their critical reading of the manuscript. This work was supported by USPHS Grants AI-08614, AM-1003, and by the American Heart Association.

Correction. In the article "Absence of the Sequence G-T- ψ -C-G-(A)- in Several Eukaryotic Cytoplasmic Initiator Transfer RNAs," by Simsek, M., Ziegenmeyer, J., Heckman, J. & RajBhandary, U. L., which appeared in the April 1973 issue of *Proc. Nat. Acad. Sci. USA* **70**, 1041-

1045, the following correction should be made. On page 1042, line 18 from the bottom of column 1 should read: "... , 0.01 unit of purified *E. coli* alkaline phosphatase was"; not "... , 5 units...."
