

**Correction.** In the article "Crosslinked histone octamer as a model of the nucleosome core" by A. Stein, M. Bina-Stein, and R. T. Simpson, which appeared in the July 1977 issue of *Proc. Natl. Acad. Sci. USA* 74, 2780-2784, the following error should be corrected. The clause beginning on the eighth line of the abstract should read "protein denaturants were not necessary for reassociation."

**Correction.** In the paper "5'-Terminal 7-methylguanosine and mRNA function: Influence of potassium concentration on translation *in vitro*" by Lee A. Weber, Eileen D. Hickey, Donald L. Nuss, and Corrado Baglioni, which appeared in the August 1977 issue of *Proc. Natl. Acad. Sci. USA* 74, 3254-3258, information was missing from the title material. The paper was *Communicated by David Baltimore, May 25, 1977.*
