**DOI 10.1007/s12192-012-0398-3**

Due to an unfortunate turn of events, the annotation for Arabidopsis At5g05210 locus in Table 1 of the above mentioned publication may not be correct. In order to avoid further confusion, the gene name of this 26th entry in Table 1 had to be updated. The correct representation of locus ID At5g05210 and its gene name is published here and should be treated as definitive by the reader.

**Table 1** List of candidate proteins interacting with the AtCSP3 by yeast two-hybrid

No: 26

Locus ID: At5g05210

Gene name: Surfeit locus protein 6 (SURF6) / Ribosomal RNA processing protein 14-like
