PAGE 12471:

The data shown for TBP binding to the *Lcn2* promoter in Fig. 1A are not correct. The correct data are shown in the version of the article that was published as a *JBC* Paper in Press on March 3, 2008, but a duplicate of the pol II panel was incorrectly substituted for the TBP panel in the redacted version that was published on May 2, 2008.

Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
