PAGE 33687:

The image representing input data for the HO-1 Maf recognition element in Fig. 4D was mistakenly used to represent input data for the third exon of the *HO-1* gene in Fig. 4F. The correct data for the third exon of the *HO-1* gene are now shown in Fig. 4F. Furthermore, Fig. 4A did not conform with the *JBC* policy that figures assembled from separate images should indicate the borders between the images. These errors do not change the interpretation of the results or the conclusions of this work.
