

An intervention designed to improve sensory impairments in the elderly and indoor lighting in their homes: an exploratory randomized controlled trial [Corrigendum]

Haanes GG, Kirkevold M, Hofoss D, Horgen G, Eilertsen G.
J Multidiscip Healthc. 2015;8:11–20.

On page 15, Visual status heading, the first sentence “The results from the vision test are presented in Table 3” should have been removed from the paper. The second sentence should have read “There were some slight improvements in the VA in both groups between T_1 and T_2 ; these improvements did not differ significantly between the groups (one-way ANOVA between the groups, $P=0.57$).”

On page 16, Hearing status heading, the first sentence “The results from the pure-tone audiometry test are presented in Table 4” should have been removed from the paper.

The Journal of Multidisciplinary Healthcare is an international, peer-reviewed open-access journal that aims to represent and publish research in healthcare areas delivered by practitioners of different disciplines. This includes studies and reviews conducted by multidisciplinary teams as well as research which evaluates the results or conduct of such teams or

healthcare processes in general. The journal covers a wide range of areas and welcomes submissions from practitioners at all levels, from all over the world. The manuscript management system is completely online and includes a very quick and fair peer-review system. Visit <http://www.dovepress.com/testimonials.php> to read real quotes from published authors.
