ERRATUM

Open Access

Erratum to: Insulin improves memory and reduces chronic neuroinflammation in the hippocampus of young but not aged brains

Linda Adzovic[1,2], Ashley E Lynn[2], Heather M D'Angelo[1], Alexis M Crockett[2], Roxanne M Kaercher[1], Sarah E Royer[2], Sarah C Hopp[2] and Gary L Wenk[1,2*]

Erratum

Following the publication of our article [1] we noticed that the western blot in Fig. 3c (Fig. 1c here) was incorrectly labelled. The S307-AKT band should instead be labelled T308-AKT. We have provided the correct figure here.

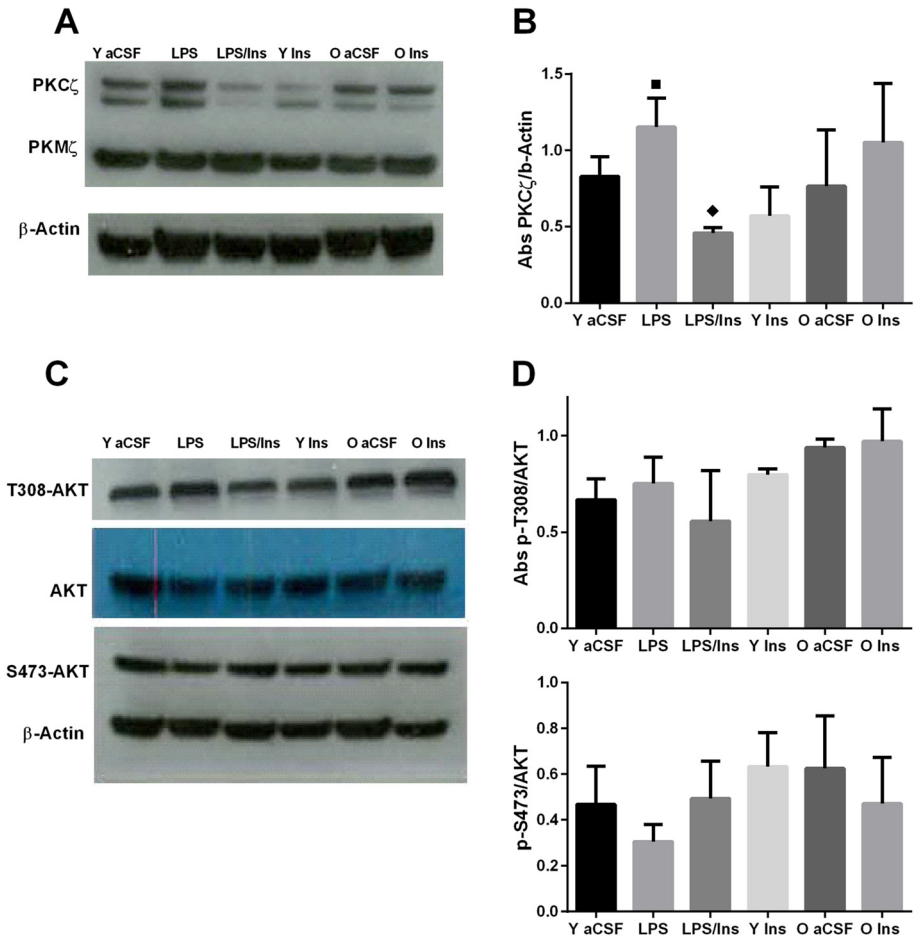

Fig. 3 Western blot analyses. The infusion of LPS into the fourth ventricle increased the protein level (**a**, **b**) of PKCζ, black square, $P < 0.05$ *versus* aCSF. Insulin treatment reduced, black diamond, $P < 0.001$, PKCζ levels as compared to LPS. (**c**, **d**) No significant changes were observed for p-AKT Threonine 308 or Serine 473
