DOI 10.1074/jbc.A114.609230

## **Membrane and integrative nuclear fibroblastic growth factor receptor (FGFR) regulation of FGF-23.**

Xiaobin Han, Zhousheng Xiao, and L. Darryl Quarles

**PAGE 10457:**

There was a typographical error in the left column, line 1. The sentence, “Indeed, phenylthiohydantoin, which is coupled to both intracellular calcium and cAMP signaling, induces FGF-23 transcription in UMR106 osteoblast-like cells via activation of nuclear receptor-related protein 1” should read as follows. “Indeed, parathyroid hormone (PTH), which is coupled to both intracellular calcium and cAMP signaling, induces FGF-23 transcription in UMR106 osteoblast-like cells via activation of nuclear receptor-related protein 1.”

Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
