# The Prognosis of Nasopharyngeal Carcinoma Involving Masticatory Muscles: A Retrospective Analysis for Revising T Subclassifications: Erratum

In the article “The Prognosis of Nasopharyngeal Carcinoma Involving Masticatory Muscles: A Retrospective Analysis for Revising T Subclassifications”,<sup>1</sup> which appeared in Volume 94, Issue 4 of *Medicine*, the “With” and “Without” curves of Figure 2 were mislabeled. The article has since been corrected online.
