Internal tandem duplication mutations in *FLT3* gene augment chemotaxis to Cxcl12 protein by blocking the down-regulation of Rho-associated kinase via the Cxcl12/Cxcr4 signaling axis.

Chie Onishi, Satomi Mori-Kimachi, Tomohiro Hirade, Mariko Abe, Takeshi Taketani, Junji Suzumiya, Toshitsugu Sugimoto, Seiji Yamaguchi, Reuben Kapur, and Seiji Fukuda

Dr. Onishi's name was misspelled. The correct spelling is Chie Onishi, as shown in the author line.

Authors are urged to introduce these corrections into any reprints they distribute. Secondary (abstract) services are urged to carry notice of these corrections as prominently as they carried the original abstracts.
