Corrigendum to ‘Three-dimensional, soft neotissue arrays as high throughput platforms for the interrogation of engineered tissue environments’

Michael Floren and Wei Tan*

Department of Mechanical Engineering, University of Colorado at Boulder, Boulder, CO 80309, USA

The authors regret that the equation presented for elastic modulus in section 2.3.4 Rheology should be corrected as follows:

$$E=2G'(1+\nu)$$

The same mistake was made in the inset equation of Figure 2D.

The authors note that all elastic moduli reported in the manuscript were obtained using the correct version of the equation and therefore no data or subsequent conclusions were affected.

The authors would like to apologise for any inconvenience caused.
