We have noticed an inadvertent error in our paper titled “Yangjing Capsule Extract Promotes Proliferation of GC-1 Spg Cells” [1].

The right picture was confused with Figure 3(c) during uploading. The published Figures 3(c) and 3(a) are resulting from one sample, while they were tested at different times. We have attached a corrected version of Figure 3(c). However, the error does not change the data of the paper.
