

CORRECTION

# Correction: Development of Salivary Cortisol Circadian Rhythm and Reference Intervals in Full-Term Infants

Katrin Ivars, Nina Nelson, Annette Theodorsson, Elvar Theodorsson, Jakob O. Ström, Evalotte Mörelius

In [Table 4](#), the values for mean and standard deviation are incorrect. Please see the corrected [Table 4](#) here.

**Table 4. “Regularity” measured with The Baby and Behavior Questionnaire.**

Regularity			
Month	1	6	12
Mean	2.5	3.5	3.9
SD	0.9	0.7	0.6
<b>p-value for possible differences between months</b>		<b>0.000*</b>	<b>0.000**</b>

Scale 1–5 where increased numbers represent increased regularity. Standard deviation (SD), Baby and Behavior Questionnaire (BBQ).

\*Between month one and six

\*\* Between month six and twelve

doi:10.1371/journal.pone.0151888.t004

In [Table 5](#), the values for Correlation coefficient and n for BBQ are incorrect. Please see the corrected [Table 5](#) here.

**Table 5. Correlation between salivary cortisol evening/morning quotients and Regularity and Trauma, respectively.**

BBQ			LITE		
Month	n =	Correlation coefficient	Month	n =	Correlation coefficient
			0	94	0.003
1	84	0.048	1	119	0.181
6	88	-0.047	6	109	0.082
12	96	-0.122	12	107	0.008

Spearman’s analysis for correlation between the Baby Behavior Questionnaire (BBQ) Regularity item and the salivary cortisol evening/morning quotient and Spearman’s analysis for correlation between traumas detected by the Life Incidence of Traumatic Events checklist (LITE) and salivary cortisol evening/morning quotient is presented in column three.

There is an error in the first sentence of the “Questionnaires” subsection of the Results. The correct sentence is: The BBQ Regularity item increased significantly over the months covered by the study ([Table 4](#)).

There is an error in the first sentence of the fifth paragraph of the Discussion. The correct sentence is: A steady CCR was established during the first year of life as well as a significant increase in regularity (as described in the BBQ Regularity item) developed ([Table 4](#)).
