

# Smoking and life expectancy among HIV-infected individuals on antiretroviral therapy in Europe and North America: Erratum

There is a mistake in the MRR value for mortality from cardiovascular disease, non-AIDS malignancies for nonsmokers in the abstract of this article [1]. This should read “3.31 (95% CI 1.80–5.45)” instead of “2.67 (95% CI 1.60–4.46)”.
