Glomerular Filtration Rate, Urine Production, and Fractional Clearance of Electrolytes in Acute Kidney Injury in Dogs and Their Association with Survival (pages 28–34)

N. Brown, G. Segev, T. Francey, P. Kass and L.D. Cowgill

Article first published online: 16 JAN 2015 | Doi: 10.1111/jvim.12518

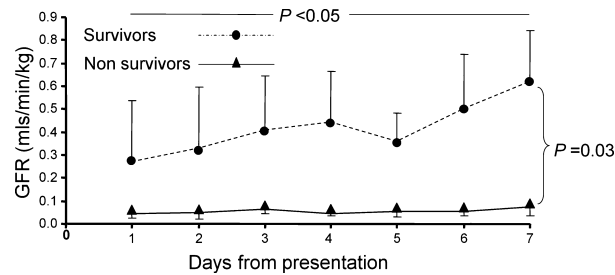

Figure 2:

Markers for non-survivors are represented by a triangle.

Markers for survivors are represented by a circle.

The original published article had the markers reversed, which were incorrect.
