Post-partum atypical haemolytic-uraemic syndrome treated with eculizumab: terminal complement activity assessment in clinical practice

Yahsou Delmas, Cécile Bordes, Chantal Loirat, Véronique Frémeaux-Bacchi and Christian Combe

Clin Kidney J (2013); 6: 243–244. doi:10.1093/ckj/sfs185

Figure 1 of this paper was erroneously published without the black axis showing plasma creatinine levels. The correct figure can be seen below. The author apologises for this error.
